# OUR SERVICES

## GENERAL HARBOR TRANSPORT

### BARGE CARRIAGE FOR CARGOES OF TRANSPORT

Harbor Transport Business covers stevedoring, which consists of loading and unloading of cargoes on and from a ship, as well as storing and retrieval of them in and from a warehouse for sorting of them, and survey and certification shipments.

We, Okamoto Logistics, transport a client's important goods efficiently, bring them into a warehouse or a yard, and effect the shipment accurately. We are making every effort day to day to be of assistance cost-wise as well as in logistics.

## OUR SERVICES

# CUSTOM CLEARANCE

Upon request of a client customs broker acts as an agent or does documentation in relation to customs authority in application for export or import of goods, as well as to the customs authority or the Minister of Finance in customs clearance, in accordance with the Customs Act and other laws and regulations related to the customs duties. We, Okamoto Logistics, make use of its 75 years of experience after the founding in meeting the needs of customers to the maximum. Our registered customs specialists keep the clients rest assured with responsibility of prompt procedures from application under the related laws and regulations until acquisition of import/export permits according to the invoice and packing list information received from the clients.

# OUR SERVICES PACKING DESIGN

Packing control specialists are making full use of the experience accumulated over a long period in performing elaborate packing design and high-quality packing, taking into consideration the product characteristics and shapes regarding large-sized equipment, precision machinery, parts, and heavy cargoes, with the Okamoto Logistics Center as the hub.

Not only a support is provided for a client's important goods in respect of the logistics, but also care is taken in packing of them exactly to meet the requirements of various destination countries. Design and manufacture of a returnable container (It is necessary for this to investigate the laws and regulations of the counterpart country for import or export, as the case requires.)

The term "Multi-mode Transport" means a combined system of transport using two or more out of land, marine, and air transport means under one contract: We provide our clients with high added-value services using our worldwide international through transportation system to meet Various needs of the clients. We carry out comprehensive door-to door logistics, not to speak of small parcel consolidation and CY cargoes, taking care minutely through accurate information exchange in cooperation with local forwarders.

# OUR SERVICES FREIGHT FORWARDING

Simplify your supply chain, maximize transit flexibility and contain costs with end-to-end service support- utilizing regional gateway options, multiple daily air carrier schedules, contracts with multiple carriers and access to the world's largest air cargo carrier.
